2. A person who resides in Greece and who draws a pension solely under Swedish legislation, as well as members of his family who accompany him, are entitled to medical benefits in kind from the insurance institution competent for their place of residence. Benefits are granted on payment of an annual amount fixed by the Greek competent authority.

3. Benefits are provided according to the Greek legislation and the conditions determined by the competent authority.

Chapter 2. Old age, invalidity and survivors Application of Swedish legislation.

Article 15.

1. Under this Convention, basic pensions will be paid in accordance with Swedish legislation exclusively as provided in Articles 16 - 18.

2. In the calculation of basic pensions and supplementary benefits, Greek pensions will be equated with Swedish supplementary pensions.

Article 16.

1. A Greek national resident in Sweden is entitled to a basic pension on the same conditions, at the same rate and with the same additional benefits as a Swedish national,

(a) in the form of an old age pension if he has been resident in Sweden for at least the last five years and for a total of at least ten years after attaining the age of sixteen,

(b) in the form of a disability pension if he

(aa) has been resident in Sweden for at least the last five years, or

(bb) is resident in Sweden and during his residence there has been normally employable for at least one year without interruption;

(c) in the form of a widow's or children's pension

(aa) if immediately prior to his death, the deceased had been resident in Sweden for not less than five years and the survivor was resident in Sweden at the time of the death or

(bb) if the survivor has been resident in Sweden for at least the last five years and the survivor or the deceased was resident in Sweden at the time of the death.

2. A disability pension or a widow's pension to which a beneficiary is entitled according to paragraph (1) of this Article, shall be automatically replaced by an old age pension when the beneficiary reaches the general retiring age.

3. Section (b) of paragraph (1) of this Article shall apply, mutatis mutandis, concerning the right to a disability benefit.

4. A care allowance for a handicapped child shall be payable to the father or mother of the child if he or she has been resident in Sweden for at least one year.

Article 17.

1. A Greek national not satisfying the conditions stated in Article 16 but entitled to a supplementary pension is, whether resident in Sweden or abroad, save as otherwise provided in paragraph (3) of this Article, entitled to a basic pension with additional benefits in relation to the number of calendar years for which he, or in the case of a widow's pension and children's pension the deceased, has been credited with pension points under the supplementary pension insurance scheme. If sufficient points have accrued for a full supplementary pension, basic pension will be paid without any reduction. Otherwise the basic pension will be correspondingly reduced.

2. A widow's pension as mentioned in paragraph (1) of this Article shall be automatically replaced by an old age pension when the widow reaches the general retiring age. Should the periods of insurance completed by the widow herself entitle her to a higher old age pension, her pension shall be paid at the higher rate.

3. A disability benefit not paid as a supplement to a basic pension and care allowances for handicapped children, pension supplements and income-tested pension benefits are paid only for as long as the beneficiary remains resident in Sweden.

4. In cases where both husband and wife are entitled to a basic pension and where the combined pensions of both spouses are less than the pension which would be payable if only one spouse was entitled to a pension, the difference will be added to their pensions. This additional amount will be divided proportionally between the two pensions.

Article 18.

1. The condition specified in paragraph (1) of Article 17 that an entitlement to a supplementary pension exists

shall be deemed to have been satisfied if the insured or, as regards a widow's or children's pension the deceased, had an income assessed for national income tax for a certain number of calendar years before 1960. This, however, is on the condition that the number of such years, combined if necessary with the years for which pension points have been credited under the supplementary pension insurance scheme and also with periods of insurance under a Greek pension insurance scheme, total at least three years. For this purpose three hundred days of insurance completed under a Greek pension insurance scheme will be equated with one year for which income has been assessed for national income tax.

2. In applying the provisions of paragraph (1) of Article 17 for calculating a basic pension, the years before 1960 for which income has been assessed for national income tax will be equated with years for which pension points have been credited under the supplementary pension insurance scheme.

Article 19.

For the disbursement of supplementary pensions the following rules apply:

1. A person who is not a Swedish national can only be credited with pension points by virtue of gainful employment while resident in Sweden or by virtue of employment on board Swedish vessels.

2. Where periods of insurance have been completed both under the Swedish supplementary pension insurance scheme and under a Greek pension insurance scheme, these periods shall be combined to the extent necessary for the acquisition of a right to a supplementary pension in so far as they do not coincide. For this purpose, three hundred days of insurance completed under a Greek pension insurance scheme will be equated with one calendar year for which pension points have been credited.

3. When calculating the amount of a supplementary pension, only periods of insurance as stipulated in Swedish legislation will be taken into account.

4. The transitional provisions of Swedish legislation concerning the calculation of supplementary pensions for persons born before 1924 are not affected by this Convention.

Implementation of Greek legislation.**Article 20.**

Where periods of insurance have been completed in accordance with the legislation of both the Contracting Parties, the periods shall be added together for the acquisition of the right to benefits under Greek legislation, in so far as they do not coincide.

Article 21.

1. If a pension is applied for by a person who has completed periods of insurance according to the legislation of both the Contracting Parties, or by his survivors, the competent Greek insurance institution will determine the pension benefits as follows.

(a) The insurance institution establishes, in pursuance of the relevant legislation, whether the person in question qualifies for the benefit when the periods of insurance are added together.

(b) If the applicant is found to be entitled to the benefit, the insurance institution calculates the theoretical amount which would have been awarded if all the periods of insurance completed in accordance with the legislation of the Contracting Parties had been completed in Greece, the amount of the benefit being taken as a theoretical amount in so far as it is not dependent on the length of the insurance period.

(c) On the basis of the amount calculated as provided in sub-paragraph (b), the insurance institution then calculates the partial benefit payable by it, according to the ratio between the length of the periods of insurance to be taken into account according to its legislation and the total duration of the periods of insurance to be taken into account according to the legislation of both the Contracting Parties.

2. If the total length of the periods of insurance, which shall be taken into account in accordance with the Greek legislation for the calculation of the benefit does not attain twelve months, and provided that no entitlement to pension in accordance with Greek legislation exists without applying article 20, no benefit is paid out according to this legislation.

3. Periods of employment in mining work in Sweden are taken into consideration when applying the Greek provisions on heavy work and work hazardous to health.

Article 22.

The following rules shall be observed by the competent Greek insurance institutions in their implementation of Article 20 and 21.

(1) Only Greek periods of insurance are taken into account when establishing the branch of insurance and the competent insurance institution.

(2) Periods of insurance under the Swedish supplementary pension insurance scheme and years of residence before 1960 for which the person in question has had income assessed for national income tax are to be regarded as periods of insurance completed in accordance with Swedish legislation.

(3) In applying paragraph (1) of Article 21, Swedish periods of insurance are to be taken into account even if they are not regarded as periods of insurance under Greek legislation.

(4) In calculating the amount of pension, only periods of insurance under Greek legislation are to be taken into account.

Article 23.

1. If according to Greek legislation pension rights exist even without any regard being had to Article 20, the competent Greek insurance institution shall pay a pension with reference solely to periods of insurance which are to be taken into account under the legislation which the insurance institution has to apply, in so far as there is no corresponding entitlement to a benefit under the Swedish supplementary pension insurance scheme.

2. A pension established as provided in paragraph (1) of this Article is redetermined when entitlement arises to a corresponding benefit under Swedish legislation. Redetermination takes effect from the day on which the benefit under Swedish legislation becomes payable. The fact of previous decisions having become final does not constitute any impediment to the conversion.

Article 24.

If according to Greek legislation entitlement exists to a benefit even without any regard being had to Article 20, and this benefit is greater than the sum total of the Greek benefit calculated as provided in paragraph (1) sub-paragraph c) of Article 21 and the Swedish supplementary pension, the Greek insurance institution will pay as a partial benefit its own benefit, calculated in the manner foresaid and increased by the difference between this sum total and the benefit which would be payable if regard were had exclusively to the legislation which the insurance institution has to apply.

Chapter 3. Occupational accidents and diseases.

Article 25.

1. The right to benefits due to an accident at work shall be determined according to the legislation applying to the beneficiary at the time of the accident, as provided in Articles 7 - 10.

2. Compensation for a further accident at work shall be established by a competent institution according to the reduction of work capacity which has been caused by the further accident and in accordance with the legislation which the said institution has to apply.

3. If, in accordance with the legislation of one of the Contracting Parties previous occupational accidents or diseases are taken into account when determining the degree of disablement, the competent insurance institution takes into account for the same purpose previous occupational accidents or diseases due to work in the territory of the other Contracting Party, in the same manner as if the legislation of the first Contracting Party had been applicable.

Article 26.

1. Benefits in connection with an occupational disease are determined according to the legislation of the Contracting Party whose legislation was applicable when the beneficiary worked in the occupation involving the risk of the occupational disease, even if the disease was first established in the territory of the other Contracting Party.

2. Should the beneficiary have worked in such occupation in the territories of both Contracting Parties, the legislation of the Party in whose territory the beneficiary was most recently occupied shall be applied.

3. If an occupational disease has occasioned the award of a benefit under the legislation of a Contracting Party, compensation for an aggravation of the disease occurring in the territory of the other Contracting Party shall also be paid according to the legislation of the former Party. This shall not apply, however, if the aggravation is attributable to activity in work involving a risk of the disease in the territory of the other Contracting Party.

Chapter 4. Unemployment.

Article 27.

1. If the legislation of both Contracting Parties, has been applied to a person, then the periods of insurance or employment, which are to be taken into consideration according to both Parties legislation, shall be added together for the acquisition of the right to receive unemployment benefits, in so far as they do not coincide.

2. The application of paragraph (1) presupposes that the person concerned has been employed in the territory of the Contracting Party, under the legislation of which he is claiming the benefit, for at least four weeks in total during the last twelve months before submitting the claim. Paragraph (1) applies, however, even when his employment has terminated before the expiration of four weeks, if it was terminated through no fault of the employee and had been intended to last for a longer period.

Article 28.

The duration of the period of payment of benefits, for which a claim exists under the legislation of one of the Contracting Parties pursuant to Article 27, is reduced to take account of the time for which benefits have been paid to the unemployed person by an insti-

tution in the territory of the other Contracting Party during the last twelve months immediately before the application was filed.

Chapter 5. Family benefits.

Article 29.

1. A general children's allowance is payable under Swedish legislation with respect to a child resident in Sweden and who is not a Swedish national if the child or either of its parents has been resident in Sweden for at least six months, or if the child is being cared for by a person residing and registered in Sweden.

2. Family allowance and demographic children's allowances under Greek legislation are payable with respect to a child resident in Greece and being a Swedish national in the same circumstances and on the same conditions with apply for children who are Greek nationals.

Article 30.

To the extent that entitlement to family benefits under Greek legislation presupposes the completion of certain periods of employment or insurance, such periods completed in Sweden are also taken into account.

Article 37.
